	The runway at Lintung was gray and appeared to be either cement or concrete. No anti-aircraft guns, radar, or GCA equipment were noted in the area. One TU-2 was parked in each of the field's revetments. Married officers lived with their families on the base. Enlisted men and their families lived in Sian. No foreigners were observed at Lintung, and the field appeared to be run entirely by Chinese.	50X1-HUM
